

Complementary Medicine: Exploring the Issues

The following anonymous questionnaire will assist the prioritisation of issues to be discussed in the following two sessions. Your participation is welcomed.

Complementary (or natural) medicine can be divided into **products** (such as vitamins, minerals, herbs, fish oil, and homeopathic products) and **therapies** (such as naturopathy, reflexology, reiki, chiropractic and aromatherapy) provided by **practitioners**.

Over the last 12 months, have you:

Purchased a complementary medicine **product**:

Product name	For what reason	Has it helped (Yes / No / Unsure)	Discussed with GP (Yes/ No)

Consulted a complementary medicine **practitioner**:

Practitioner type	Reason for consult	Has it helped (Yes / No / Unsure)	Discussed with GP (Yes / No)

Finally, is there a particular topic or issue that you would like covered in this short course?

Thank you for your participation.
